

Finished Goods & Sales Management System

The main features of the database package of the Finished Goods & Sales System are as follows

- Complete record of buyer's category wise.
- Handling of credit options for each customer.
- Issuance of delivery order to finished go downs
- Entry of OGP (Outward gate passes)
- Preparation of sales invoices (Taxable and non-taxable)
- Handling of auto receivable booking in customers ledger.
- Handling of go downs transfers and stocks.
- Proper handling of sales return.
- Provision of predefined sales rates.
